## WHY REDCLIFFE QUOTA SUPPORTS I.W.D.

Quota International has been in the Redcliffe community for 62 years, supporting the community, empowering women and giving children sound beginnings in a variety of ways through friendship and service.

International Women's Day has been observed since the early 1900's – a time of great expansion and turbulence in the industrial world that saw booming population growth and the rise of radical ideologies. It is now a global day celebrating the economic, political and social achievements of women in the past, present and future. It is a day when women are recognized for their achievements, regardless of divisions - whether national, ethnic, linguistic, cultural, economic or political and has been recognized and celebrated by Quota International of Redcliffe since 1996.
